Subject : Al-Jubail Phase 2 - Power House "A" -  
GALLARATESI METERING PUMPS

On Power House A of Al-Jubail Phase 2 Plant a total of 24 Gallaratesi Metering Pumps were installed.

These pumps are used to meter the flow of Hydrazine, Ammine, Phosphate to Boiler Feed Water.

14 Pumps are of Duplex type, with 12 having automatic control for high pressure (150 atg).

The pumps were put in operation starting in late 1982, and so far their performances have been satisfactory.

J. W. MOORE  
Resident Construction Manager
