REFERENCE LETTER

TO WHOM IT MAY CONCERN

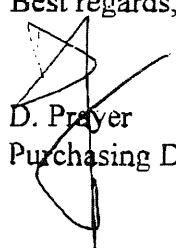

This is to certify that many "metering pumps" manufactured by OFFICINE MECCANICHE GALLARATESI - MILAN - are used by our Company.

In particular, all the pumps have been supplied coupled, as usual, with:

- ROSSI MOTORIDUTTORI gear reducers
- CEMP INTERNATIONAL electric motors
- SAIP pulsation damper

They have been operating to our satisfaction without any trouble, for several years, and the after sales service and spare parts supply has been very good.

Best regards,

D. Prayer
